## Comments / Notes:

June 1st, 2021 visited site for investigation with assistance from Don McElhaney with DEQ-CIU. Investigation revealed that open burning had probably occurred on this site in the past. RP's Cheryl Scott and Jeff Lowe who leases property for Tiger King operation, were on site for investigation and showed us the different areas we needed to investigate. Both RP's seemed to not be aware open burning of waste from the Tiger King operation was not allowed. I provided them information regarding allowed open burning and non-allowed open burning. I also informed property owner and RP, Cheryl Scott she would receive a warning regarding open burning.

RE: Complaint number 169777

Dear Cheryl Scott:

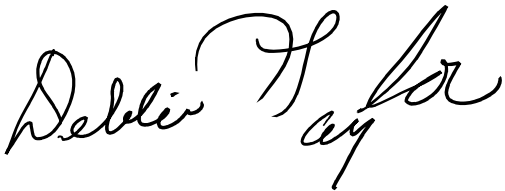

The Department of Environmental Quality (DEQ) has received a complaint of open burning on your property located at 21469 Jimbo Rd, Thackerville, OK 73459. Our investigation revealed that illegal open burning probably occurred at this site.

Although the Department will take no legal action at this time, we would like to make you aware of the regulations against open burning. OAC 252:100-13-5 states "No person shall cause, suffer, allow, or permit open burning of refuse and other combustible material except as may be allowed in compliance with OAC 252:100-13-7."

Burning such as was reported to DEQ is not permissible under any circumstances. Documented illegal open burning may result in enforcement action by this agency.

If you have any questions regarding this matter, please call me at (580) 226-2554.

Sincerely,
