## **NEWS RELEASE**

FOR IMMEDIATE RELEASE

November 6, 2019

### **Ivie Acres Farms provides loving care to all of its animals.**

GRANTSVILLE, Utah – Ivie Acres Farms is privileged to own and care for over 100 farm and exotic animals. Ivie Acres and its owners closely monitor the health and wellbeing of all of its animals, including providing regular veterinary care and periodic inspections by the U.S.D.A. to ensure a clean, healthy, and safe environment.

Approximately 3-percent of animals on the farm pass away during each year due to age, illness, or unfortunate injury. This rate is equal to or lower than the industry standard. Ivie Acres Farms provides immediate and necessary care to any of its animals that may be in distress.

Ivie Acres strongly disagrees with any claims that its animals are mistreated. Its owners and volunteers are passionate animal lovers that spend every day with their animals to ensure their wellbeing. Any claims regarding mistreatment of any animal are completely false. In response to a recent unfounded complaint, the Grantsville Police Department investigated the welfare of the animals, and stated that no animals appeared to be in any distress.

Ivie Acres Farms will continue to provide quality care and loving attention to all of its precious animals.
