### 3.127(b)

#### FACILITIES, OUTDOOR.

The plastic structure in the enclosure housing 8 Jacob sheep that serves as a shelter has been torn down by the sheep. There are trees in the enclosure that provide protection from the sunlight. However, there is currently no shelter for the sheep to protect them from inclement weather. Lack of shelter from inclement weather can cause discomfort to the sheep and does not provide protection from the elements. A shelter must be provided for the sheep to protect them from inclement weather.
