On 2/19/19, I, Investigator R. Doricchi with the Florida Fish and Wildlife Conservation Commission (FWC) received an email from Duty Officer Supervisor D. Stratmann (also with FWC) in reference to an individual observing a fox that had a collar on it. The location of where the fox was observed is near Silver Sands Rd. Keystone Heights, FL 32656. The complainant advised that her and her neighbor both observed, what they believed to be at the time, a gray fox wearing a collar. The complainant also advised that her neighbor told her it approached him closely. A photo was attached and emailed to me as well.

After receiving the information, I searched for nearby facilities holding a class III license to

possess mammals. One facility that was is somewhat close proximity to the location of the sighting, was a facility called "Single Vision" (App ID: 14526). It was at this time I called the licensee Carl Bovard.

When Mr. Bovard answered, I asked him if he had a fox that had escaped. Mr. Bovard advised he did have a fox that escaped, but that had already recovered it. He went onto advise that the fox was back and secured at his facility. Upon request, Mr. Bovard emailed me a picture of the fox and advised it was a blue morph arctic fox. Due to the fact that I was out of my area of responsibility at the time of the incident, I advised Mr. Bovard that I would inspect the facility when I returned.

On 2/28/2019, I, along with K9 Officer R. Hoover (also with FWC) went to Mr. Bovard's facility to get a written statement, as well as inspect the enclosure that the fox had escaped from. In Mr. Bovard's statement, he stated "Sunuk (unknown exact spelling) - artic fox got out evening 2/16/19 and recovered morning 2/17/19." After receiving the written statement, we then went to the enclosure where the fox had escaped from. Mr. Bovard advised that there was a hole that the fox got out of in the back corner of the enclosure. The hole had already been repaired/fixed to prevent further escape.

Based on the totality of the circumstances, Mr. Bovard was in violation of 68A-6.003(1)(b), primarily, failing to properly ensure the enclosure the fox escaped from, was well braced and securely anchored at ground level to prevent escape by digging or erosion. Mr. Bovard will be issued one written warning

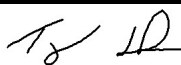

***68A-6.003 Facility and Structural Caging Requirement for Class I, II and III Wildlife.***

*(1) In addition to the standard caging requirements set forth in Rule 68A-6.004, F.A.C., Class I and Class II animals shall be caged in accordance with the following requirements:*

*(b) All cages or enclosures constructed of chain link or other approved materials shall be well braced and securely anchored at ground level to prevent escape by digging or erosion. Cages shall be constructed using metal clamps, ties or braces of equivalent strength as the material required for cage construction for the particular species. Cages or enclosures using the ground as flooring must meet the following requirements:*
