### 3.1(c)(2)

#### HOUSING FACILITIES, GENERAL.

All surfaces must be maintained on a regular basis, and those that cannot be readily cleaned and sanitized must be replaced when worn or soiled.

Peeling paint, covering approximately 1/2 to 3/4 of the individual runs of the sheltered dog facility, was present in all runs. Uneven surfaces caused by peeling paint and/or exposure of porous concrete underneath can cause these surfaces to be incompletely sanitized. This can cause buildup of material or organisms that can affect the health of the animals.

To be corrected by 3/11/2014.

The inspection and exit briefing were conducted with the licensee.
