Dear Premier Doug Ford,

**Re: Repeal the Security from Trespass and Protecting Food Safety Act**

On June 19th 2020, my beloved daughter Regan Russell lost her life during a protest against the passing of Trespass and Protecting Food Safety Act, aka Ag-gag Bill 156. She dedicated her life to ending animal oppression and her life was so unjustly taken in the process.

The Bill passed despite warnings from dozens of legal experts from across the country that the legislation is unconstitutional and violates rights to free expression and peaceful assembly.

I plead with you on my 92nd birthday on December 6, 2022 to repeal the Security from Trespass and Protecting Food Safety Act in memory of vegan activist Regan Russell.

Yours sincerely,

William Joseph Russell
